**Approve Minutes from March 23, 2022 Meeting:**

**David Hubbell**

- All approved with no changes.

**Safety Moment:**

- With the arrival of spring weather, many naturally occurring dangers are present. Be aware that snakes, scorpions, and centipedes are out and about. Now is a good time to remove any dead fallen leaves from against your house foundation – live oak and lantana leaves may be dry and crispy.

**Liaisons:**

- **Landscape Supervisor –**

**Carlton Mathis**

Carlton reported that debris piles along the hiking trails continue to be chipped and the resulting mulch is spread in needed areas.

- **EMC –**

**Brian Richard**

Brian reported on the recent roundtable held with area agencies. The tabletop scenario was a good opportunity to impress the Georgetown Fire Department with Firewise and EMC prevention methods and to better understand the decision making process between the EMC and Community Association.

EMC will continue to work with the GFD and GPD through a once per month meeting.

A brief discussion of the “Warn Central Texas” app occurred, in light of the app being used to warn SC residents of the need for water conservation. (Since rescinded) David Hubbell acknowledged the organization and planning of the Tabletop Exercise.

#### **Renewal Work Group:**

**Paul Ohlenbusch**

- The Firewise renewal application must be completed by November 15, 2022. Firewise USA requires that the size of the SC community be divided into 5 areas of no more than 2500 homes. Discussion occurred about the difficulties of this requirement versus the benefits of being able to claim the Firewise endorsement. Jim Romine offered to contact the national organization for clarification about this requirement and if there could be any impact for the Firewise Group.

#### **Firewise Clearing Crew:**

**Petra Garren**

- Petra reported they have most recently worked in N58. They had a good size crew of 13 volunteers and great support from the residents in the area. Because of high temperatures, clearing crew work could take an early summer break starting in about mid-June.

#### **Other Topics:**

- From the audience – Aggie, a Firewise evaluator, asked about the availability of Firewise stickers, and a suggested plant list to share with HIZ evaluations and visits. These items are no longer available.
