Reminders:

If you are signed up for a training class and cannot attend, please stop in the CyberCenter or call 868-9780 to cancel with the Monitor. You will be given credit which can be used for a future class of your choice.

Someone else may be waiting for a chance to take the class. This is especially important with the Windows 10 classes, as many members are waiting to take the class.

Feedback: You can give us your feedback at any time by signing on to the www.sctexas.org website, navigating to the Computer Club microsite, then clicking on the "Feedback" button on the right side of the window, or the "Feedback" link in the left navigation panel. When the Feedback window opens, you can direct your comments to the Help Center, the Lab, Monday Meetings, Newsletter, SIGs, or the Website.

SIG Meetings: When you attend a SIG meeting, it is <u>very</u> important that you remember to sign-in on the meeting room sign-in computer. The Computer Club uses meeting attendance counts to justify its need for space in the SC Community's limited facilities.

Cyber Security: Cyber security today is a rapidly changing landscape of news and events. In an effort to keep the membership informed the computer club has a link on the Cyber Security SIG's web page to NEWS BLOG. Using this link brings up the most recent postings in a digest form. If members see item(s) that are of interest, click on the item(s) as they scroll by. Opening any of the items on the scrolling digest opens all previous items in a separate web page. [Message from the Cyber Security SIG.]

Malware Help: microsite is available for use. Click here.
