

## Meetings this week:

\* *"First Time" is a two-prong program intended to assist those who are relatively new to using a computer and would like to better understand its use, functions and usefulness.*

*The next First Time - Presentation will be held on Wednesday, 27 February 2019 from 2:00 until 3:30 p.m. The topic will be "Computer Security."*

*A second element of the First Time program, called "First Time - Homeroom," consists of "hands-on" sessions, held monthly, and again lasting no more than 1 1/2 hours each. At these sessions, attendees will be encouraged to bring their own computer equipment (desktop, laptop, or tablet) to the event to work one-on-one with an instructor and have their "How Do I . . .?" questions answered.*

*The next First Time Homeroom session is planned for 22 February 2019, from 1:00 p.m. until 2:30 p.m.*

*Please mark your calendars accordingly.*

*All First Time program gatherings will be held in the Cyber Center Annex room, Activities Center building, 1 Texas Drive.*

*The First Time team looks forward to assisting each of you with improving your computer knowledge and skills.*
