

# Computer Club E-Newsletter January 13, 2019 – January 19, 2019

**Special Notice (reminder) -** The Monday presentations in 2019 will be many fewer than in past years due to several factors: the foremost reasons are that no one has volunteered to head the program; and the usual Ballroom schedule is not available to the Club this year. Only the few remaining scheduled programs will occur. Therefore, the Board has decided to add Monday afternoons to the Lab opening hours.

However, the Lab will be closed on Monday afternoon, <u>January 14</u> because of the Computer Club Annual Meeting.

#### 

### **Meetings this week:**

First Time –	Fri., Jan. 18	2:00 – 3:30 pm	Annex
Presentations *			

\* "First Time" is a two-prong program intended to assist those who are relatively new to using a computer and would like to better understand its use, functions and usefulness.

One element of the First Time program, called "First Time - Presentations," consists of a once-a-month session, lasting no more than 1-1/2 hours, during which a computer-related topic will be presented followed by a question-and-answer session.

The next First Time - Presentations will be held on Friday, 18 January 2019 from 2:00 until 3:30 p.m. The topic will be "The World Wide Web, a.k.a The Internet."

A second element of the First Time program, called "First Time Homeroom," consists of "hands-on" sessions, held monthly, and again lasting no more than 1 1/2 hours each. At these sessions, attendees will be encouraged to bring their own computer equipment (desktop, laptop, or tablet) to the event to work one-on-one with an instructor and have their "How Do I . . .?" questions answered.

*First Time Homeroom sessions also are planned for January 25th., February 8th., and February 22nd., 2019, from 1:00 p.m. until 2:30 p.m.* 

Please mark your calendars accordingly.

All First Time gatherings will be held in the Cyber Center Annex room, Activities Center building, 1 Texas Drive.

The First Time team looks forward to assisting each of you with improving your computer knowledge and skills.

John Wilhelm

### **Classes this week:**

Windows 10	Linda Baker	Jan. 14, 16 & 18	9:00 – 11:00 am
