

Off-Site Exhibits

The Picture Patch - a three-person exhibit of photographs by Cheryl Janssen, Joyce Pinder, and Marcela Stegemueller opens March 3 and runs thru April 6, 2018 at St. David's Georgetown Hospital in the Healing Arts Gallery. It features 30 printed images of subjects including landscapes, people, flowers, animals, and architecture.

The idea for this exhibit began a year ago while these three friends were attending an intensive 16-week Progressive Photography Workshop.

The gallery is located in the hallway off the main lobby area. It is free to the public and open from 8 to 8 daily.

While you are at St. David's you might also enjoy visiting their Impressions Gallery featuring emerging artists and strolling down the Colonnade and ER Waiting Area where enlarged photographs from many of our members are framed and permanently displayed.
