

What is CapTel?

The Cap Tel phone works like any other telephone with one important addition: it shows captions of everything your caller says. You can listen to the caller and can also read the captions in the Cap Tel display. Just like captions on TV, only for your phone, the service is FREE. The Cap Tel phone connects with a free captioning service to provide the captions. You can hear the other party, plus read their captions for added clarity.

Are there different Cap Tel models and how would I get one?

Yes, currently Cap Tel is offering four different models and you can receive three different ways. Each model can be obtained one or more of these ways.

For purchase of \$75.00:

Purchased online at Cap Tel.com; over the phone at 1-800-233-9130 or through your local rep.

Through the FCC Third Party Certification Program

This program allows you to acquire an Internet Protocol Cap Tel (840i,880i,2400i) for FREE. To receive the phone for free you must complete a Third Party Certification which includes a signature of Certified Professional. (Audiologist or Hearing Aid Specialist), These forms are available through your local rep: Clark Buxton by email at: Clark.Buxton@OutReachExpertsINC.com

Through the STAP Program.

This State program allows you to acquire the 840,840i,880i for FREE. The STAP Program also has a similar form that must be signed by a professional available at: <http://www.dars.state.tx.us/dhhs/forms/dars3906.doc>

The STAP application also offers a bunch of other assistive devices. I have learned so much through this program by just looking up the different devices and what they can do. They are all pretty amazing.

We currently have four products available:

1. 840- Standard model, analog, phone line required, no internet required, available for free through STAP,
2. 840i-Standard model, phone service, internet required, available for free through FCC 3rd party certification,
3. 880i- vision impaired model, phone service required, internet required, available for free through 3rd party certification
4. 2400i-touch screen model, internet required, available for free through 3rd party certification. This is a new model and only available through the Outreach Rep.

Not only are our products all available for free through some sort of programs but we also install every phone at no charge.

Each Model has a Large Color Display Screen, Built in Answering Machine, 40 Db Hand Set Amplifier, Speed Dial Buttons, Caller ID, Pitch and Volume

Controlled Ringer, Tone Control, Direct Customer Service Speed Dial, Conversation Recording, and much more.
