Hearing Solution SIG October 13, 2016

These are NOT your grandparent's hearing aids!

hearing aids

miciallo compression \mathbf{RC}

- Makes soft sounds audible
- Makes loud sounds comfortable
- Provides a perfect balance between audibility and comfort
- Is personalized for the individual's hearing profile

P2i's technology delivers game-changing solutions

to the challenges associated with water damage.

A new addition changes the game again...and ReSound is approached by Apple in 2012.

Through this connection came direct bluetooth connection to the hearing aids without the use of wires.
