 Water

Features   Design   Apple Water Apps   Gallery   Tech Specs   Buy Now

Water
Clean. Simple. Wet.

If you've been drinking the juice, you're ready to drink the water. Apple Water is designed especially for the Apple connoisseur: beautifully packaged, easy to drink, and perfectly overpriced. A magical blend of hydrogen and oxygen, Apple Water says everything they need to know about you.

Instant waterfication.
Apple's QuarterTwist technology ensures that you never have to twist the cap more than 90 degrees.

Built-in display.
Temperature-sensitive logo shifts from red to blue when Apple Water has reached Steve Jobs' favorite drinking temperature.

Water

A perfect grasp every time.
No slipping or sliding. The Apple Water enclosure is ribbed for greater satisfaction.

Molecular perfection.
Literally twice as many hydrogen atoms as there are oxygen atoms.

Tip-resistant bottle.
Apple Water's revolutionary base remains upright with up to 4.6 pounds of lateral pressure.

Optional ingestion vessel.
Drink from an Apple- designed container in this unique "cup" design. Only $29.99. Buy Now ▶

Battery Health

Settings >> Battery >> Battery Health (Beta)
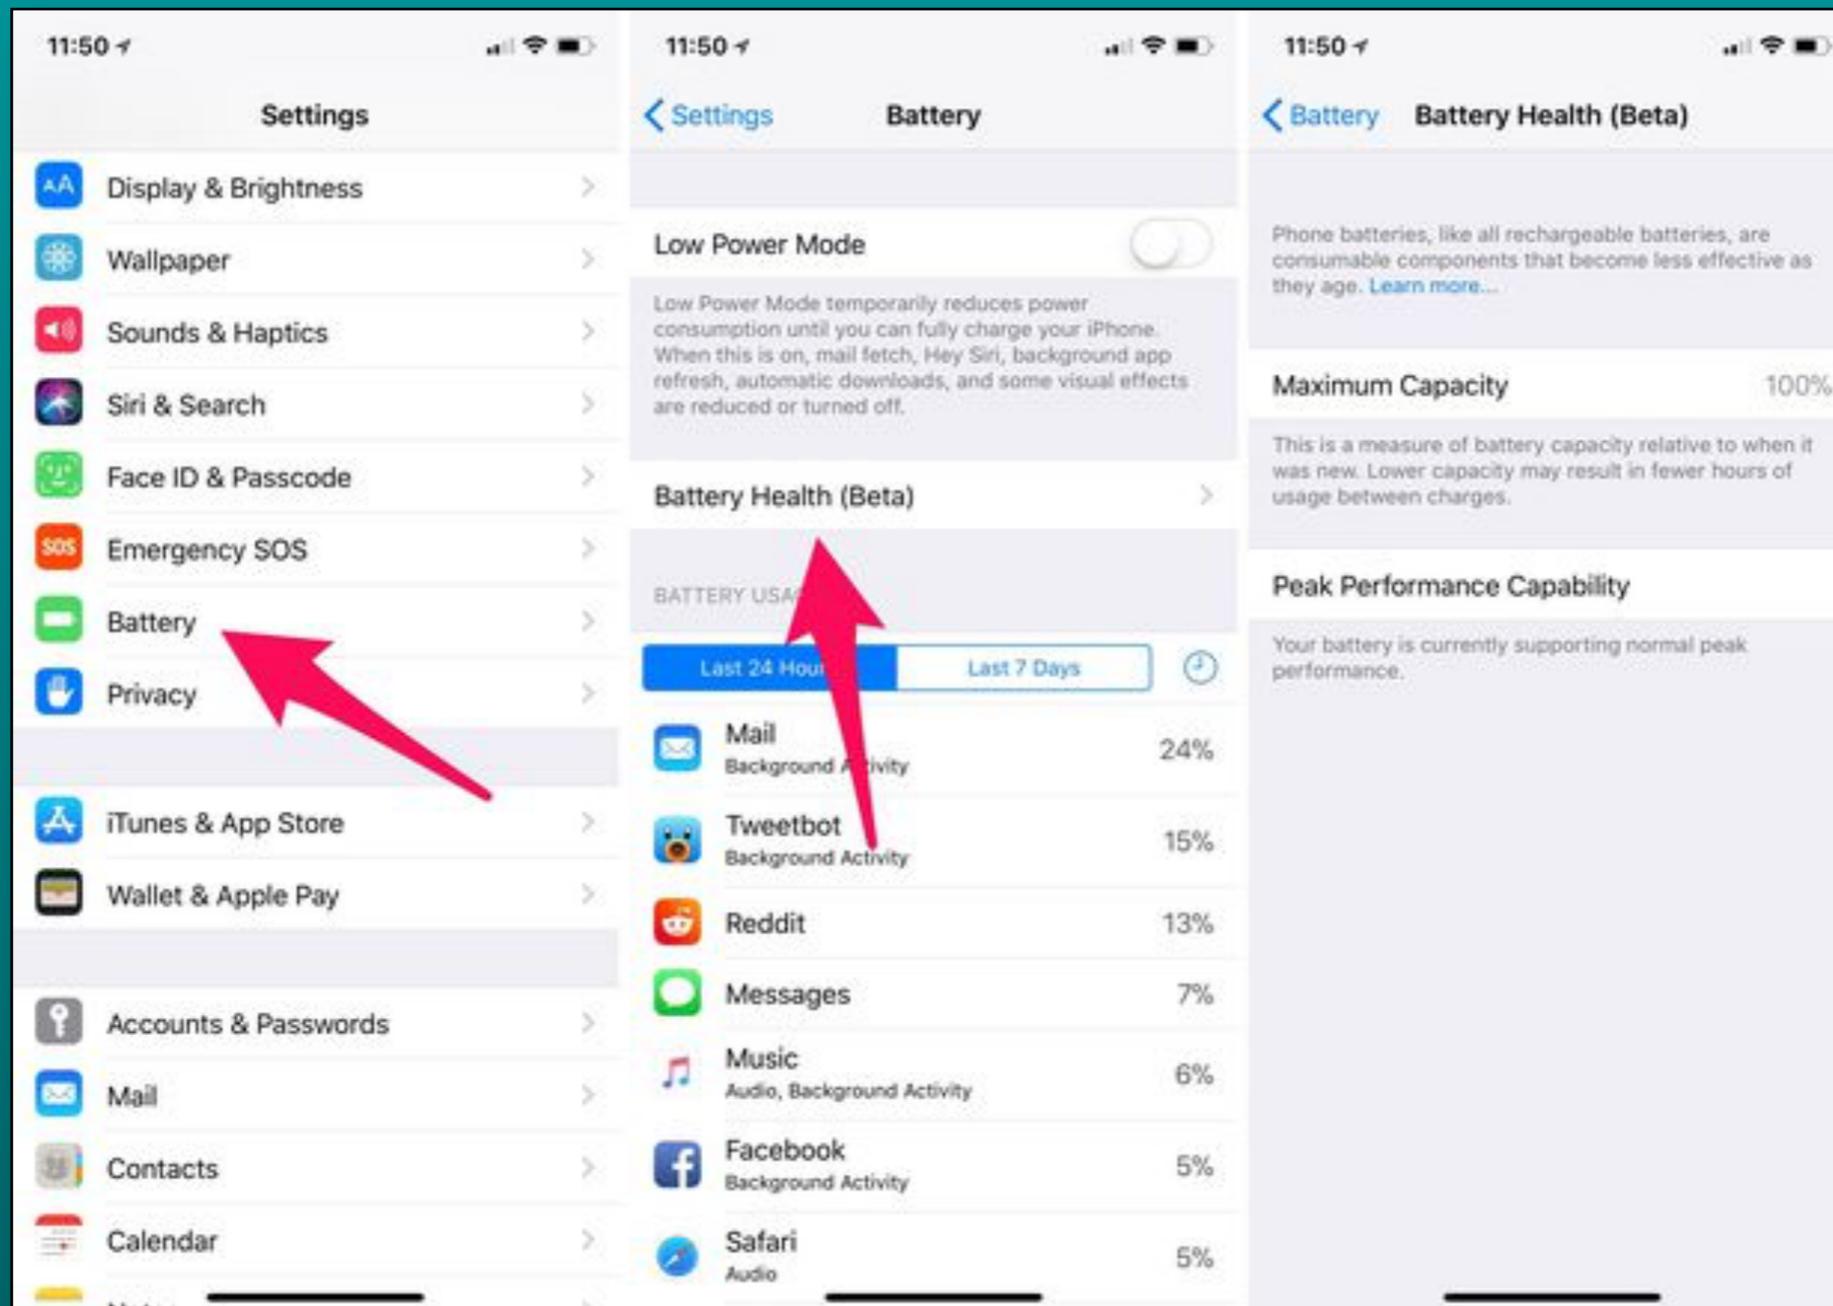

Battery Health (Beta)

- **New option to disable the 'Performance Throttling' feature**

    - **If disabled, you may experience more frequent shutdowns (crashes)**

- **Another option is to get the battery replaced**

- **Third option is to live with the 'performance throttling'**

- **Click here for more details**

Considered significantly degraded at 79% or less maximum capacity
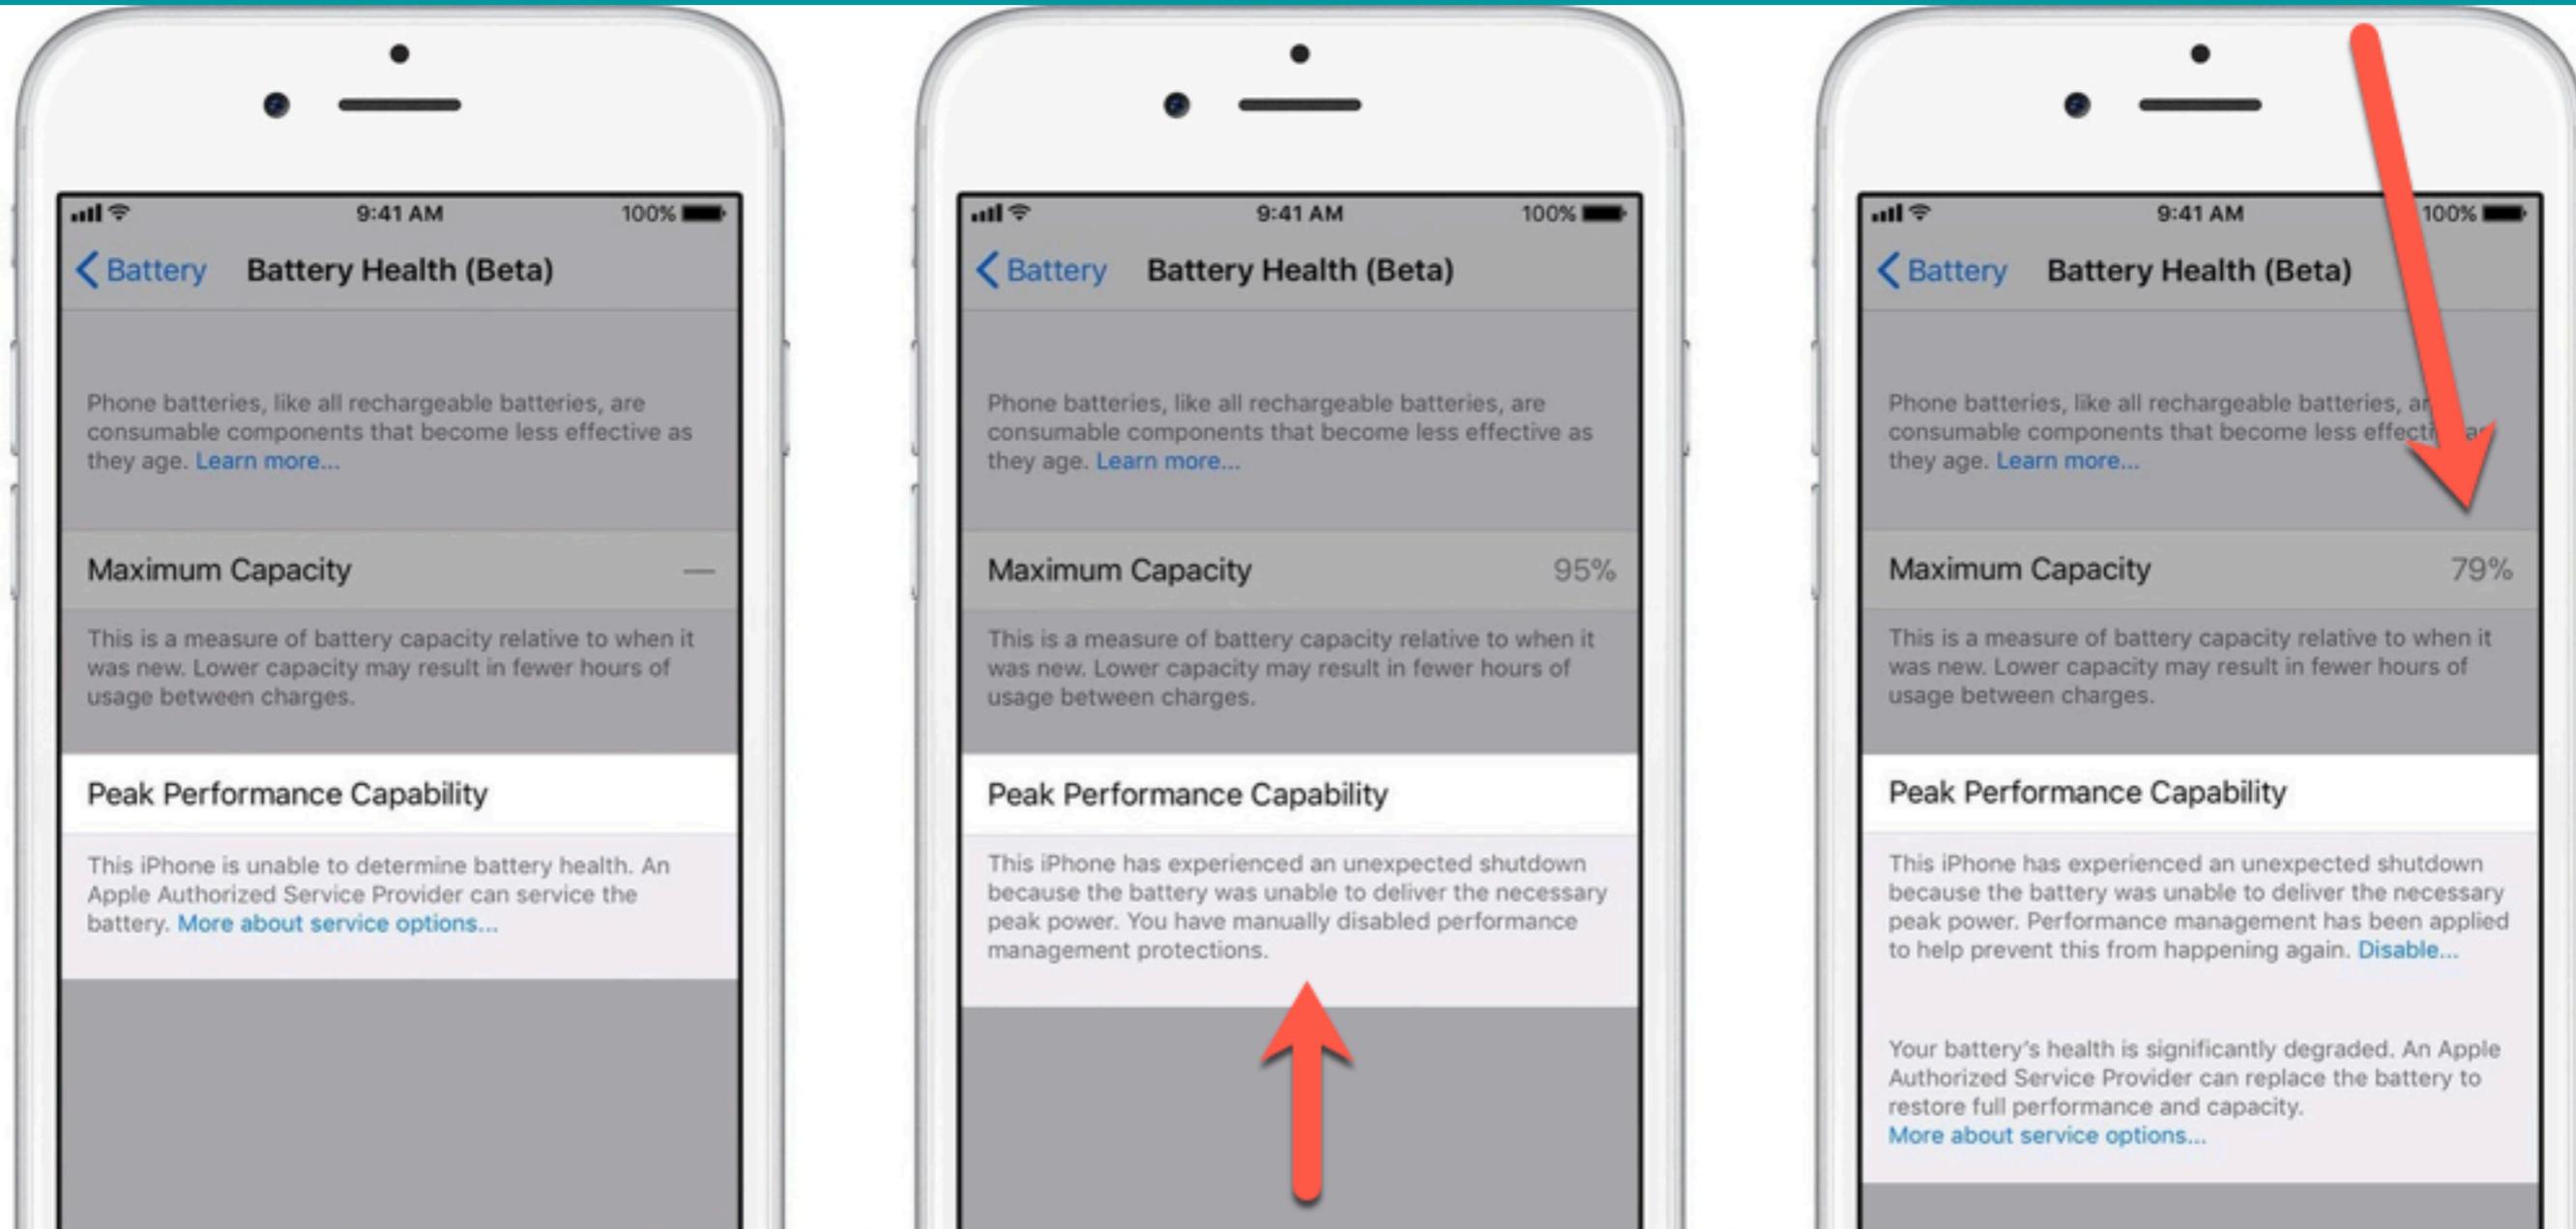

# This message appears if you have manually disabled performance protections

Left phone:

◀ Battery   **Battery Health (Beta)**

Phone batteries, like all rechargeable batteries, are consumable components that become less effective as they age. Learn more...

Maximum Capacity   79%

This is a measure of battery capacity relative to when it was new. Lower capacity may result in fewer hours of usage between charges.

Peak Performance Capability

This iPhone has experienced an unexpected shutdown because the battery was unable to deliver the necessary peak power. Performance management has been applied to help prevent this from happening again. Disable...

Your battery's health is significantly degraded. An Apple Authorized Service Provider can replace the battery to restore full performance and capacity.
More about service options...

Right phone:

◀ Battery   **Battery Health (Beta)**

Phone batteries, like all rechargeable batteries, are consumable components that become less effective as they age. Learn more...

Maximum Capacity   95%

This is a measure of battery capacity relative to when it was new. Lower capacity may result in fewer hours of usage between charges.

Peak Performance Capability

This iPhone has experienced an unexpected shutdown because the battery was unable to deliver the necessary peak power. Performance management has been applied to help prevent this from happening again. Disable...
