## iTunes Card Scam

#### The First Email From a good friend - the email is legit

From: Ima Goodfriend <<u>a\_friend@MSN.com</u>> Date: February 24, 2021 at 8:28:39 AM CST To: Subject: Request

How are you? My mind is heavy, and I need a favor from you.

Thank you Ima Goodfriend

#### The Second Email After agreeing to do a favor

Thank you, very much. I need to get an Apple itunes gift card for my niece who is a cancer patient. She has been on wheelchair all her life and it's her birthday but i can't do this now because I'm currently showing symptoms and isolating properly.

I would have called you but I'm coughing seriously so I can't even step outside, use the phone well or accept visitors to avoid exposure. I just have to continue my medications..

Can you get it for me from any store around you? I'll pay back as soon as I'm much better. Kindly let me know if you can handle this.

Thank you Ima

#### The Third Email - After agreeing to buy cards

Thank you so much for your care and concern. Please don't even bother, okay? I'm seriously sick been coughing so bad and I'm very high risk right now. I can't even open the front door to take anything. I tried coming out to pick stuff in the mailbox, I fell down and could not breathe...had to rush back in, called my doctor and he has warned me not to step a foot outside or even open my door for anyone. I'm responding to treatment, but I must continue my medications. I want a physical card please not an online card.

You can buy it from any drug store/ cvs store) around you. Total amount needed is \$400 but will appreciate any amount you can help me with if you can't buy it all since you never planned to spend....I promise to refund you. (\$100 OR \$200 denominations are always better when buying).

Once you buy it, no need to mail it or send it anywhere. I just need you to go home, scratch the back of the card to reveal the pin, take a clear picture of the back showing the pin OR write the pin in Capital letters and have them sent to me so I can forward to her directly. This is how I always send it to her. I have attached a sample of one I sent her.

Hope to receive it from you soon.

Thank you - Ima

#### The Fourth Email - After sending pictures of redeem codes

Thank you so much . I can't explain how grateful I'm right now. You can dispose of the physical cards now because she's okay with the pictures and I promise to refund you.

She's taking cinematography courses and she's very good. She uses the gift cards for her courses to buy her apps, video making tutorials and apps, learn how to be functional with disability, e-books, etc...and I encourage and support her always.

Please, I just received a message from her that she initially wanted \$1,000 worth of card and I already made her a promise and have to fulfill it so I'm still short of \$600 more card.

Kindly help me get it done for me when you less busy today. I promise to refund the entire amount according to your instructions of how to send it once I'm fine and okay. I just want to make her happy and feel special by making it a round figure. Let me know when you can get this done for me.

l appreciate, Ima

## Rearrange Home Screen

Make the icons jiggle - 3 ways

Long press an area of the screen (not an icon)
They will start to jiggle

Long press an icon for quick action menu
 Select 'Edit Home Screen'

Extra long press an icon
 Quick action goes away and they jiggle

#### **Quick Action Menus**

Most G apps have 'bonus' quick actions
Most 3rd party apps only have 3 actions
Edit Home Screen

- Share App
- Remove App

	KVUE®				
Edit Home Screen					
Share App	Û				
Remove App	Θ				
3rd Party App					

	Take Selfie			
	Record Video			
	Take Portrait	$\heartsuit$		
	Take Portrait Selfie	$\heartsuit$		
$\rightarrow$	Edit Home Screen			
	Remove App	Θ		
Apple Camera App				

#### **Rearrange Home Screen Tips**

- Trouble dragging from screen to screen?
- Use the 'tray' in the bottom row
  - Remove an app from bottom row
  - Replace with the app you want to move
  - Scroll to the new page
  - Drag the app out of the tray

#### **Rearrange Home Screen Tips**

- You can move two or more apps at one time

- Make the apps jiggle
- Drag first app but don't let go
- Tap other apps on same page
- Drag to new screen or use tray

- I'll demonstrate it on my iPhone

## **Rearrange Home Screen Tips**

#### - Move two or more apps at one time

#### One app Moved

5 apps Stacked

#### **Remove an App**

Make the icons jiggle

Tap the 'Minus' sign
-or

Long press for quick action menu

Tap 'Remove App

#### **Remove an App**

## Most apps have two removal options

 Delete app (from iPhone)
 Remove from Home Screen
 Stays on device in the App Library

#### **Remove an App**

Some Capps cannot be removed from iPhone

They are integral to other functions

- 'Hide' them in the App Library

Slide Home Screens right to left to reveal the App Library

iOS automatically puts apps in folders by category

You can't edit these folders

- Suggestions folder based on your use of the phone
- Recently added is helpful, new apps at top of list
- No clue how the other folders are ordered

## Tap a large app icon to launch it

Tap the 4 small apps to see all the apps in the folder

### **App Library** Example App Library folder

From any page, make them jiggle

Tap Plus sign to begin

Scroll examples

Alphabetical list at the bottom

#### Tap the widget to customize it's look and size

#### Tap '+ Add Widget' to add it!

#### Add a Widget Drag your widget to reposition it

Widget is just a large app icon

Tap it to open the app

Remove the small weather icon (you don't need it now)

### Add a Widget Smart Stack

Combine multiple widgets in one 'stack'

Auto-rotates based on your usage/time of day

Or manually scroll thru them

Smart Stack

Use C's stack or build your own by 'stacking' same size widgets

#### Add a Widget Edit a Smart Stack

Change the order or delete from stack

Use elevator bars to reorder

Swipe right to left to delete

Add new widget to the stack

### **My Home Screens**

A couple of big widgets and my primary apps

Two home screens

Everything else in the App Library

### **Quick Access to Any App**

Drag down any home screen

Enter app name in search bar
