Click here to take a virtual tour of our facilities.

Welcome to the
website of the
Sun City Texas
Computer Club.

Phone ~ Cyber Center: 512-868-9780

Lab Hours:

Saturday ~ 9 a.m. - noon

Monday though Friday ~ 9 a.m. - 3 p.m.

Computer Club / Photography Club Cooperation

Sun City meeting space availability diminishes every year. In the spirit of neighborly cooperation, and to maximize the use of the facilities allocated to the Computer Club, the Board has welcomed the Photography Club for periodic classes and meetings in our facilities.

Contact
clubofficial@sctxcompclub.org
for more information.

Computer Club Special Interest Groups (SIGs)

The Computer Club has many groups that meet each month to discuss topics of interest. Computer Club members, click on the SIG name below for description, and meeting schedule.

CyberSecurity

This special interest group deals with CyberSecurity in all forms. Check out the news feed from the CyberSecurity SIG, which is an entry on the SIG menu.

First Time

The First Time SIG is for members seeking answers to their questions about how to use computers. Its volunteers assist beginning computer users to become more knowledgeable about their computers and to use them more effectively. For more information click on the name *First Time* just above.

Genealogy

The Genealogy SIG provides a forum for the exchange of information and experience about the use of computer programs and the many resources found on the web for genealogical research.

Hearing Solutions

The HEARING SOLUTIONS SIG is comprised of those who seek knowledge regarding hearing loss, searching for solutions & related professional information. The SIG meets most months on the 2nd Thursday at 10:00 am in the Activity Building Atrium.

iDevices

The IDEVICES SIG provides opportunity for sharing of experiences and knowledge about iPhones, iPads, Apple watches, iTunes & Applications. It meets most months on the 2nd Friday at 1:30 pm in the Activity Center Atrium.

Internet of Things (IoT)

A forum for the informal exchange of information and to educate and guide one another on how to experiment, design, and implement the microprocessors, micro-controllers, sensors, and activators associated with the Internet of Things.

VectorVest

The VectorVest & Beyond (VVB) Special Interest Group (SIG) provides a forum for the exchange of information and experience about investing software for curious members at beginning and intermediate levels. The goal is to learn more about using tools found within VectorVest.com and other software such as AAll.com, FinViz.com, Morningstar.com, and StockCharts.com.

Windows

The WINDOWS SIG is dedicated to the understanding and proficiency of the Microsoft Windows operating systems. It meets the 2nd and 4th Tuesday at 9:00 AM.

 **Microsoft**

Your Windows 7 PC is out of support

As of January 14, 2020, support for Windows 7 has come to an end. Your PC is more vulnerable to viruses and malware due to:

- No security updates
- No software updates
- No tech support

Microsoft strongly recommends using Windows 10 on a new PC for the latest security features and protection against malicious software.

Out of band OPTIONAL Microsoft Windows versions 1903 & 1909 update/fix released February 28, 2020

Some users were adversely affected by some patches/updates applied on February's Patch Tuesday update.

A optional update KB4535996 was released. As it is optional you may need to search Microsoft's sites or use Windows Update to find this fix.

Fix, did i say fix?

Here is what is fixed in the new update:

- Fixed a speech platform issue that prevented it from opening in "high noise environments".
- Fixed a Windows Mixed Reality home environment issue that reduced the image quality.
- Fixed a PeerDist-encoded content issue in Internet Explorer and Microsoft Edge.
- Fixed an ActiveX issue that might prevent it from loading.
- Fixed an issue in Microsoft browsers that might cause the browsers to bypass proxy servers.
- Fixed an issue that could prevent Centennial apps from opening.
- Fixed an issue that prevented the installation or upgrading of UWP apps in some situations.
- Fixed a Microsoft Narrator issue that caused it to stop working if a user session exceeded 30 minutes.
- Fixed an update issue that caused an unwanted keyboard layout to be set as the default after upgrades or migrations even if it was already removed.
