## System & reserved

### System files

14.2 GB

These system files help Windows run properly. Your PC won't work without them.

### Reserved storage

7.28 GB

Windows reserves some storage to facilitate proper performance and successful updates of your device.

[Learn about how Storage Reserve works](#)

### Virtual memory

2.89 GB

This lets your PC run multiple apps at the same time.

### Hibernation file

6.36 GB

This lets your PC sleep while maintaining your user state.
