A screenshot of a Windows taskbar context menu. The menu is light gray and contains four items: 'Version Reporter Applet' with a small window icon, 'Pin to taskbar' with a pushpin icon, 'End task' with a circle and slash icon, and 'Close window' with an 'X' icon. Below the menu, the taskbar is visible with icons for File Explorer, Edge, the Start button, and the 'Version Reporter Applet' window.

### Canary Channel:

Ideal for highly technical users. Preview the latest platform changes early in the development cycle. These builds can be unstable and are released with limited to no documentation.

◆ **Rebooted!** ◆

### Dev Channel:

Ideal for enthusiasts. Access the latest Windows 11 preview builds as we incubate new ideas and develop long lead features. There will be some rough edges and low stability.

### Beta Channel:

Ideal for early adopters. These Windows 11 builds will be more reliable than builds from our Dev Channel, with updates validated by Microsoft. Your feedback has the greatest impact here.

Unchanged.

### Release Preview Channel:

Ideal if you want to preview fixes and certain key features, plus get optional access to the next version of Windows before it's generally available to the world. This channel is also recommended for commercial users.

# STRATEGY

IN THE UPCOMING YEARS, CONTOSO PLANS TO UNVEIL A SUITE OF HIGH-SCALE EL CONSUMERS MAY BE ACCUSTOMED TO SEEING ONLY FROM UPS

## SCOPE

*Scope will include one innovative core package design with minor modifications only for the three product versions. Final packaging must include the following considerations:*

## GOALS

We know that we're not known as being exactly cutting edge when it comes to our product packaging. But this release **will** be different. This is a game-changing product and so it needs to be game-changing from the moment it gets into the customer's hands and even before that. This starts with our packaging.

**Our primary goal** for package design in this release is to not just showcase a product but connect with our consumers, from office workers to homemakers. The packaging should be unique and creative, but not simply for the purpose of creating something different. There needs to be a reason for this packaging—every element should help the consumer connect with the product in some way.
