## Delivery Optimization

Delivery Optimization provides you with Windows and Store app updates and other Microsoft products quickly and reliably.

### Allow downloads from other PCs

If you have an unreliable Internet connection or are updating multiple devices, allowing downloads from other PCs can help speed up the process.

If you turn this on, your PC may send parts of previously downloaded Windows updates and apps to PCs on your local network or on the Internet. Your PC won't upload content to other PCs on the Internet when you're on a metered network.

- Delivery Optimization
- Settings > Update & security > Delivery Optimization

The screenshot shows the Windows Settings application window for the 'Delivery Optimization' page. At the top, there is a home icon and the title 'Delivery Optimization'. Below the title, a paragraph explains that Delivery Optimization provides Windows and Store app updates and other Microsoft products quickly and reliably. A section titled 'Allow downloads from other PCs' follows, with two paragraphs of explanatory text. The first paragraph states that if you have an unreliable Internet connection or are updating multiple devices, allowing downloads from other PCs can help speed up the process. The second paragraph explains that if you turn this on, your PC may send parts of previously downloaded Windows updates and apps to PCs on your local network or on the Internet. A red box highlights the text 'or on the Internet.' in the second paragraph. At the bottom of the page, there is a blue link that says 'Learn more'.

Delivery Optimization provides you with Windows and Store app updates and other Microsoft products quickly and reliably.

### Allow downloads from other PCs

If you have an unreliable Internet connection or are updating multiple devices, allowing downloads from other PCs can help speed up the process.

If you turn this on, your PC may send parts of previously downloaded Windows updates and apps to PCs on your local network **or on the Internet.** Your PC won't upload content to other PCs on the Internet when you're on a metered network.

**Windows 11**

The screenshot shows the Windows Settings application with the 'Windows Update' page selected. The left sidebar lists various settings categories, with 'Update & Security' expanded to show 'Windows Update' as the active option. The main content area displays the 'Windows Update' title and a status of 'Updates available', with a last check time of 'Today, 10:12 PM'. A specific update is listed: '2021-10 Cumulative Update Preview for Windows 10 Version 21H1 for x64-based Systems (KB5006738)', which is currently 'Downloading - 1%'. A link for 'View optional updates' is provided. Below this, a 'Feature update to Windows 10, version 21H2' is announced, with a detailed description of the update and a 'Download and install' button. A prominent warning message states: 'This PC doesn't currently meet all the system requirements for Windows 11. Get the details and see if there are things you can do in the PC Health Check app.' A 'Get PC Health Check' button is next to the warning. At the bottom, there is a 'Pause updates for 7 days' option with a link to 'Visit Advanced options to change the pause period'.

## Marketing Ideas

1. Why Storytelling Matters. Storytelling brings our brand to life in powerful ways. Storytelling connects our hearts by revealing something about people, brands, products, and companies.  Henry

2. Creative Principles. Our brand is crafted with care. Consistent expression unifies our experiences all around the world. It helps people recognize the VanArsdel brand and our family of connected brands.  AS

3. Collective Experiences. We aspire to be a brand that is authentic, inspiring, and relevant. We want to earn people's love, creating fans that will advocate on our behalf. And you play an important part in doing that.  AS

You

 This is the one!!  Agreed  AS

Serena

4. Personality. Our personality guides our behavior and creates the foundation for how we express ourselves. Understanding how we are - approachable, empathetic, determined, real, and passionate - influences how our brand is perceived.  AS

Windows 11

For information about Windows update terminology, see the article about the [types of Windows updates](#) and the [monthly quality update types](#). For an overview of Windows 11 (original release), see its [update history page](#).

**Note** Follow [@WindowsUpdate](#) to find out when new content is published to the Windows release health dashboard.

## Highlights

- Updates a known issue that might prevent some of you from opening or using certain built-in Windows apps, such as the Snipping Tool, the Emoji Panel, or the Touch Keyboard.

## Improvements and fixes

This non-security update includes quality improvements. Key changes include:

- Addresses a known issue that might prevent some users from opening or using certain built-in Windows apps or parts of some built-in apps. This issue occurs because of a Microsoft digital certificate that expired October 31, 2021. This issue

# Event Viewer

The screenshot shows the Windows Event Viewer application. The main window displays a list of events in the System log. A dialog box titled "Add/Remove Columns" is open, allowing the user to customize the columns shown in the event list. The dialog has two panes: "Available columns" and "Displayed columns".

Available columns:	Displayed columns:
Keywords	Date and Time
User	Source
Operational Code	Event ID
Log	Task Category
Computer	
Process ID	
Thread ID	
Processor ID	
Session ID	
Kernel Time	
User Time	
Processor Time	
Correlation Id	

The background event list shows the following columns: Level, Date and Time, Source, and Task Category. The selected event is "Event 7040, Service Control Manager", with a log name of "System" and a source of "Service Control Manager".

# Event Viewer

The screenshot shows a Windows File Explorer window with the search bar containing the query `datemodified:2/1/2016 .. 2/20/2016`. The search results are displayed in a table with columns for Name, Date modified, Type, Size, and Folder. The results include various ETL files and logs, such as `Application.evtx` and `DirectX.log`.

Name	Date modified	Type	Size	Folder
<code>dosvc.1284389125.1...</code>	2/19/2016 5:59 PM	ETL File	64 KB	<code>dosvc (C:\Windo...</code>
<code>Application.evtx</code>	2/19/2016 2:22 PM	Event Log	13,380 KB	<code>Logs (C:\Windows...</code>
<code>WindowsUpdate.20...</code>	2/19/2016 5:32 AM	ETL File	8 KB	<code>WindowsUpdate (...</code>
<code>WindowsUpdate.20...</code>	2/19/2016 4:36 AM	ETL File	8 KB	<code>WindowsUpdate (...</code>
<code>SIH.20160219.01455...</code>	2/19/2016 1:45 AM	ETL File	8 KB	<code>SIH (C:\Windows\...</code>
<code>WindowsUpdate.20...</code>	2/19/2016 1:32 AM	ETL File	8 KB	<code>WindowsUpdate (...</code>
<code>WindowsUpdate.20...</code>	2/19/2016 12:29 AM	ETL File	12 KB	<code>WindowsUpdate (...</code>
<code>WindowsUpdate.20...</code>	2/18/2016 11:37 PM	ETL File	8 KB	<code>WindowsUpdate (...</code>
<code>DirectX.log</code>	2/18/2016 11:26 PM	Text Document	417 KB	<code>Logs (C:\Windows)</code>
