Windows 11 Patch Tuesday

- The May 2025 Patch Tuesday update includes several important fixes and improvements:
- ♦ Windows 10 Update (KB5055612) – This update for Windows 10 version 22H2 brings security patches and maintenance updates. It also fixes GPU paravirtualization issues in the Windows Subsystem for Linux (WSL) and updates the Windows Kernel Vulnerable Driver Blocklist to prevent Bring Your Own Vulnerable Driver (BYOVD) attacks.
- ♦ Windows 11 Update (KB5055627) – The Windows 11 24H2 update introduces new AI features, including Windows Recall, Click to Do, and Semantic Indexing for Copilot+ PCs. ♦ Security Updates – Microsoft has released cumulative security updates for Windows 10 and Windows 11, addressing vulnerabilities across multiple system components.

Microsoft Patch Tuesday May

- For Windows 10, updates include **KB5060533**, **KB5060531**, **KB5061010**, and **KB5060998**, addressing various security vulnerabilities
- Windows 11 also received security updates, covering **66 Microsoft CVEs**, including issues related to **Windows Storage Management Provider and Cryptographic Services**
- **67 vulnerabilities, 10 critical**

Windows Patch Tuesday June

- <https://0patch.com/>

Key Features of 0patch

- **Micropatches** – Small, targeted fixes that **apply instantly** without restarting your system.
- **No Downtime** – Unlike traditional updates, 0patch **does not require reboots** or large downloads.
- **Legacy Software Support** – Provides patches for **end-of-life products** like **Windows 7, Office 2010, and Java runtime**.
- **Security for Unpatched Systems** – Fixes vulnerabilities in **unsupported software** that no longer receives official updates.

- Use Windows 11 in Computer Club Lab
- Windows 11 had learning curve
- Windows 10 as a Virtual Machine in Windows 11
- Extended Security Updates \$30/year
- Switch Linux, macOS, ChromeOS, Cloud
- Run till fail

Windows 11

Taskbar Customization Limitations

- You **can't move the taskbar** to the top, left, or right of the screen—it's locked at the bottom.
- **No drag-and-drop** support for opening files by dragging them onto app icons in the taskbar.
- **System tray icons** are more restricted, with some missing customization options.

Windows 10 features

- File Explorer Changes
- Quick Status indicators on the lock screen are gone.
- Save Search option in File Explorer was removed.
- Folder thumbnails no longer show previews of images or videos inside them.

Windows 10 features

Start Menu & UI Adjustments

- **Live Tiles** were removed, replaced by the **Widgets panel**.
- **Named groups and folders** in the Start Menu are gone.
- **Resizable Start Menu** is no longer supported.

Windows 10 features

Calendar & Action Center Changes

- Clicking on the **date/time** in the taskbar no longer shows scheduled events.
- **Action Center** was split into **Notification Center** and **Quick Settings**, changing how users access system controls.

Windows 10 Features

Other Removed Features

- **Tablet Mode** was removed, though Windows 11 has new touch-friendly features.
- **Internet Explorer** is completely gone (replaced by Edge's **IE Mode**).
- **Cortana** is no longer integrated into the taskbar—it's now just a standalone app.

Windows 10 Features

- Resources Memory, CPU, NPU, Disk
- Mini PCs
- Value of old PCs to AI avoiders

New PC?

- Windows Mixed Reality not in Windows 11 24H2
Some mixed reality headsets

Windows 11 24H2

- Microsoft Windows 11 Notepad app rewrite -> Write
- Also Paint – sticker generator smart select tool
- Snipping tool – color pincher perfect screen shot

Windows 11 AI Features

- Microsoft to extend Office app support on Windows 10 October 2028
- Microsoft Windows Patch Tuesday May 2025
70 vulnerabilities
- Recall fighting from applications

Version 137.0.3296.62 (Official build) (64-bit)

- Windows 11

Version 137.0.3296.62 (Official build) (64-bit)

Microsoft has confirmed that **Edge and WebView2 Runtime will receive updates until at least October 2028**, aligning with the **Extended Security Updates (ESU) program**.

However, **ESU enrollment is not required** for Edge updates, meaning users can still get **security patches and feature updates** without paying for ESU. If you're planning to keep using Windows 10, this ensures your browser remains secure.

Microsoft 365

- Microsoft announces 3rd major AI reorg in 15 months
- Microsoft Authenticator not a password manager
- Microsoft Authenticator is identity manager
- New Outlook June 2025 update new features

The June 2025 update for the new Outlook brings several improvements, including Copilot enhancements, better PST file support, and offline upgrades. Here are the key features:

Copilot Email Coaching: Get tone, clarity, and sentiment suggestions before sending an email.

Copilot Across Multiple Accounts: If you have a Copilot subscription or AI credits, you can now use Copilot features across all email accounts, including Gmail, Yahoo, and iCloud.

Disable Copilot: Users can now turn off Copilot in Outlook settings.

Improved PST File Support: You can now reply to and forward emails stored in PST files, with more PST-related features coming soon.

Move Emails Between Accounts: Consumer users can now transfer emails between different accounts, though this feature is disabled by default for commercial users.

Offline Enhancements: The default offline mail sync window has increased from 7 days to 30 days, and users can now search group emails while offline.

Favorites Improvements: Shared folders can now be added to Favorites.

Contact Suggestions: External contacts are now marked with an "External" tag when typing an email address.

Microsoft continues refining Outlook based on user feedback, aiming for a more flexible and user-friendly experience; Let me know if you'd like more details!

Current Issues

- Research and Analyst AI agents are now GA in Microsoft 365 Copilot.
- You can experiment with short, phone videos on your phone with Bing Video Creator
- Samsung may drop Gemini for Perplexity.

Current Issues

- New Start menu
major update
in-place scrolling, 2 new views Category & grid
Larger size, more content, improved customization
- Phone companion on new Start menu
- Lock screen widget customization
- Screen Curtain in Narrator
Blacks out display to improve privacy
Better onboarding for new Narrator users
- Windows Search settings moved
Settings -> Privacy & Security -> Search
- Windows touch keyboard improvements
Gamepad layout

Windows 11 24H4 prerelease

- Copilot Click to Do
