Port Authority Edition - Internet Vulnerability Profiling

Greetings!

Without your knowledge or explicit permission, the Windows networking technology which connects your computer to the Internet may be offering some or all of your computer's data to the entire world at this very moment!

- For orientation and background, please examine the page links provided below for important information about Internet vulnerabilities, precautions and solutions.
- . First time users should start by checking their Windows File Sharing and Common Ports vulnerabilities with the "File Sharing" and "Common Ports" buttons below.
- For orientation and information about the Port Authority system, click the Home or Help icons in the titlebar . . .

Click here to check your router now...

GRC's Instant UPnP Exposure Test

Please see Explain this to me! below for information about Windows File Sharing and Internet port vulnerabilities.

Port Authority Edition - Internet Vulnerability Profiling by Steve Gibson, Gibson Research Corporation,

Universal Plug n'Play (UPnP) **Internet Exposure Test**

This Internet probe sends up to ten (10) UPnP Simple Service Discovery Protocol (SSDP) M-SEARCH UDP packets, one every half-second, to our visitor's current IPv4 address response from any publicly exposed and listening UPnP SSDP service. The UPnP protocols were never designed to be exposed to the public Internet, and any Internet-facing equipment which does so should be considered defective, insecure, and unusable. Any such equipment should be disconnected immediately.

Your equipment at IP:

Is now being queried:

THE EQUIPMENT AT THE TARGET IP ADDRESS

DID NOT RESPOND TO OUR UPnP PROBES!

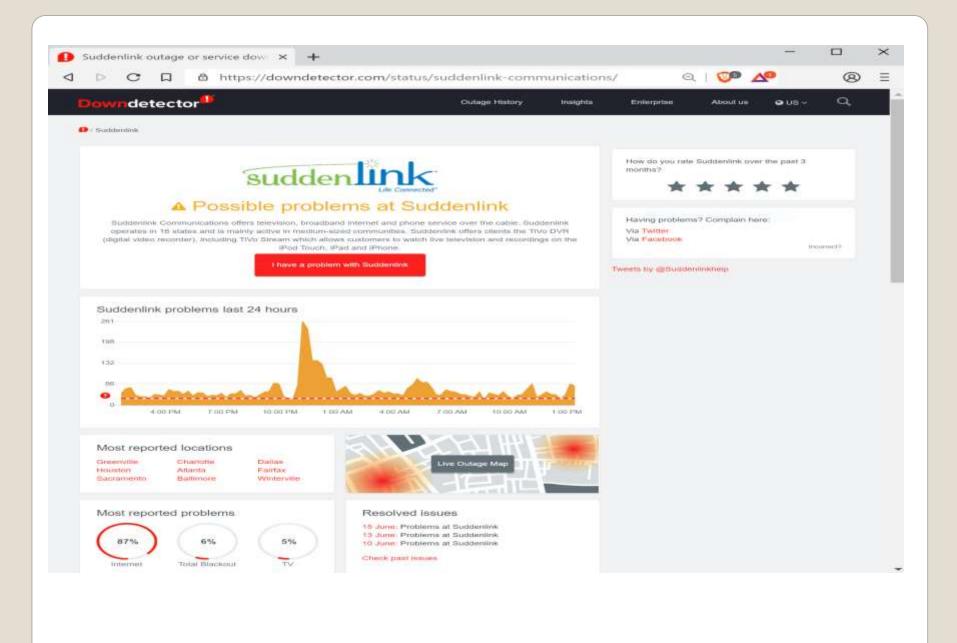

(That's good news!)

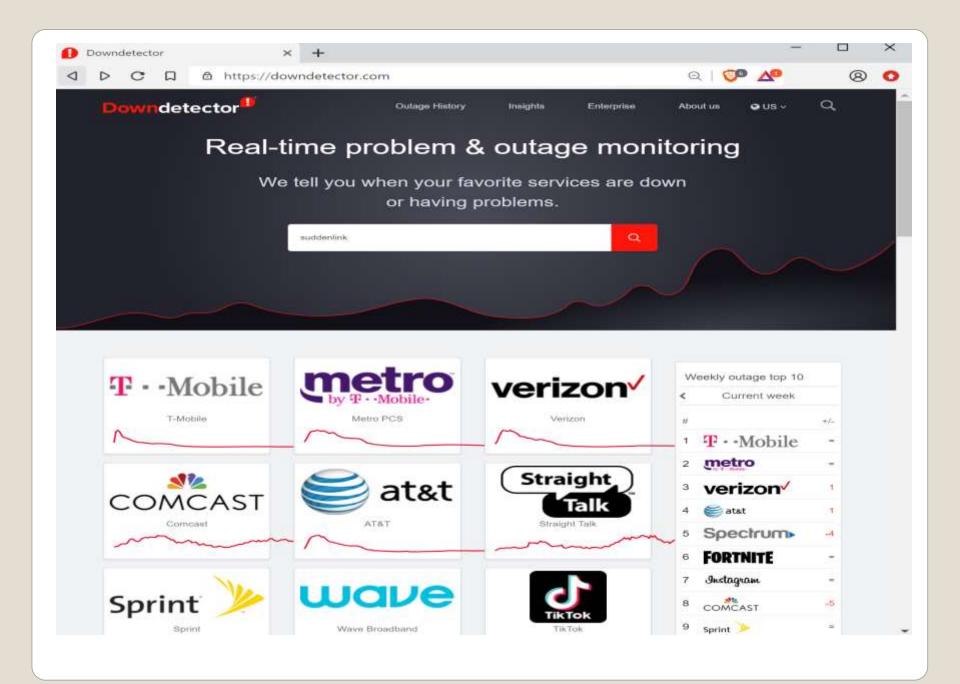

- Router and WAP don't show UPnP ports
- Disable UPnP disables future openings
- Disable UPnP, power cycle, check firmware, update firmware if applicable, power cycle, check UPnP settings, check grc.com

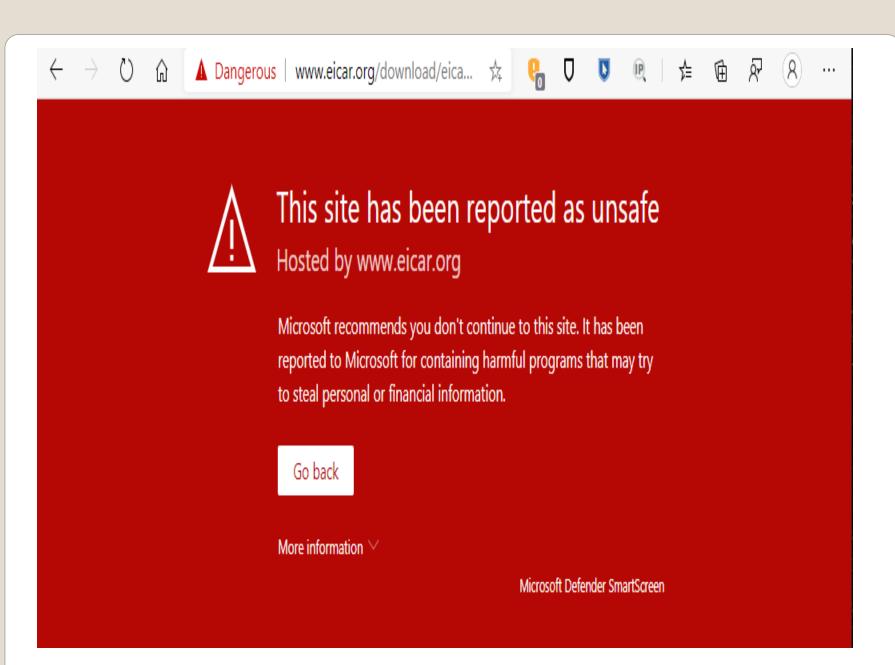

Universal Plug and Play UPnP

UPnP

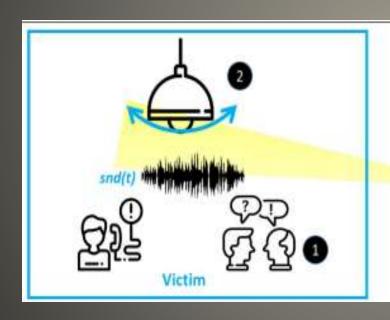

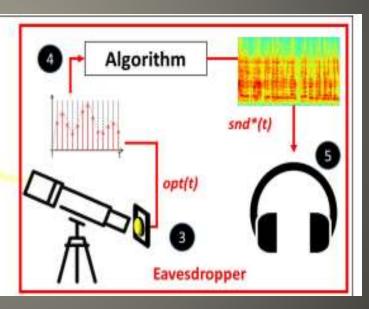

- RF detection Wi-Fi wave pattern
- Laser detection
- High frame rate camera

Lamphone

- Helpful < > Harmful
- Awareness, Preparedness, Understanding
