- Windows Basic Skills w/Linda Baker, September 12 & 14, Noon – 2:00 pm (Full)

Excel Advanced Subject Survey:

Some Computer Club members have asked that we provide classes on subjects beyond the basics in Microsoft Excel. Excel is applied in so many ways that it is difficult to guess which advanced subjects our membership would find most useful. So, if you are interested in some advanced work in Excel, we ask that you respond to the survey on the Club's web site. You must be logged in to access the "Advanced Excel Survey" link in the left panel of the home page.

Based on the responses to the survey, we will endeavor to prepare and present the subjects of greatest interest. We envision presenting the subjects in stand-alone 2- or 4-hour classes. The usual rates would apply: $5 for each 2-hour session. [This is the last call for responses.]

It is time to register for Fall Classes!!! Check the club website under Training at www.sctxcompclub.org

Facebook is scheduled for October 10
MS Word 2010 Intro and Intermediate are on the October calendar. Mail Merge is part of the Intro class---just in time to help you address those Holiday cards.

NEW ONLINE CLASS REGISTRATION INFORMATION!!!!!
The Computer Club is beginning the process of transferring class registration to ***an online registration system through the Sun City Computer Club website.***   Two October classes (Windows 10 and Windows Files & Folders) and all classes scheduled to start in November will be under the new system. The November classes will be available under the new system beginning SEPTEMBER 12. If you are interested in registering for any of these classes, you will need to do it through the **online calendar found on the Computer Club website, under Training,** that can be accessed **AFTER LOGGING IN to the Sun City website**. ***Full directions as well a how-to video will be released next week. Those already registered for the two October classes have been transferred to the new system.*** [This information will be repeated in future Newsletters until 10/19.]

<<<<<<<<<<<<<<<<<<<< O >>>>>>>>>>>>>>>>>>>>>>
Reminders:

If you are signed up for a training class and cannot attend, please stop in the CyberCenter or call 868-9780 to cancel with the Monitor. You will be given credit which can be used for a future class of your choice.

Someone else may be waiting for a chance to take the class. This is especially important with the Windows 10 classes, as many members are waiting to take the class.

Feedback: You can give us your feedback at any time by signing on to the www.sctexas.org website, navigating to the Computer Club microsite, then clicking on the "Feedback" button on the right side of the window, or the "Feedback" link in the left navigation panel. When the Feedback window opens, you can direct your comments to the Help Center, the Lab, Monday Meetings, Newsletter, SIGs, or the Website.

SIG Meetings: When you attend a SIG meeting, it is <u>very</u> important that you remember to sign-in on the meeting room sign-in computer. The Computer Club uses meeting attendance counts to justify its need for space in the SC Community's limited facilities.

Cyber Security: Cyber security today is a rapidly changing landscape of news and events. In an effort to keep the membership informed the computer club has a link on the Cyber Security SIG's web page to NEWS BLOG. Using this link brings up the most recent postings in a digest form. If members see item(s) that are of interest, click on the item(s) as they scroll by. Opening any of the items on the scrolling digest opens all previous items in a separate web page. [Message from the Cyber Security SIG.]

Malware Help: microsite is available for use. Click here.

Lab Hours: Mon. and Sat. 9:00 am – noon. Tues., Wed., Thurs., and Fri. 9:00 am – 3:00 pm

Help Center Hours: Tue. 1:00 – 3:00 pm, Fri. and Sat. 9:00 – Noon. For additional information, see the Computer Club's pages on the community website.
