

Computer Club E-Newsletter September 16, 2018 – September 22, 2018

Basic Computer Training

If you are relatively new at using a computer, or simply would like to learn more about computers and computing, please join members of Sun City's Computer Club at an informal get together on Tuesday, September 18th.

The purpose of the meeting, open to all Sun City residents, will be to determine residents' needs and interest in acquiring a basic understanding of computers and their use. An instructional program may then be developed and become available according to the response to this meeting.

Please share this information with anyone who might be interested in attending.

Note: Occupancy of the Annex is limited by code. Seating will be first-come, first-served.
