Computer Club E-Newsletter
December 16, 2018 – December 22, 2018

<<<<<<<<<<<<<<<<<<<<<<< O >>>>>>>>>>>>>>>>>>>>>>>>

Did you know?... Recently a member asked whether the Computer Club has equipment to transfer VHS tapes to digital format. In fact, we do! Members can convert a variety of media formats to digital in the lab: vinyl recordings, cassette tape, 8 and super-8 movie film, 35 mm slides, and more. And your results can be saved to a flash drive, a CD or a DVD as appropriate. Come in and talk with a lab monitor to learn what can be done, and how to get started.

Last E-Newsletter… for 2018. The lab will be closed December 24 through January 2, and no classes are scheduled in that interval. The next Newsletter will be distributed January 3, 2109.
