

### Memorandum of Agreement

This Memorandum of Agreement (MOA) is created to establish the agreement between the Sun City Computer Club (Computer Club) and the Sun City Amateur Radio Club (SCARS) for internet access.

The Computer Club has agreed to provide internet access to SCARS through direct wired connection from the Computer Club router. SCARS agrees to use only the direct connection to the Computer Club router and to assign each piece of SCARS equipment with a fixed ip address per device as provided (see Attachment A). SCARS will notify the Computer Club of any changes to their equipment so that Attachment A can be updated. SCARS will ensure their equipment uses only the provided wired connection to the internet and that WIFI will be turned off on all SCARS equipment.

This agreement will remain in effect so long as both clubs remain chartered clubs with the Sun City Community Association (SCTXCA) and that the Computer Club continues to provide internet access to its Cyber Center.

This agreement may be terminated by either SCARS or the Computer Club without cause provided 15 days' notice is given by the party requesting termination.
