Presenter???

- Apple stops signing iOS 16.3 iPadOS 16.3
So No downgrades
16.3 Jan 23, 16.3.1 February 13
Limits jailbreaking
iOS 15.7.3 as downgrade option

Good reason for 16.3.1 and Ventura
13.2.1

- President Biden review clearance
- International Trade Commission's Limited Exclusion Order
- Patent infringement AliveCor
Electrocardiogram technology
cease and desist order
- Now await appeal process

Apple watch import ban to US?

- iOS 16.3 iPadOS 16.3 Ventura 13.2
Third Party FIDO keys for AppleID
ALL devices required to be 16.3 Ventura 13.2
Move older devices to another AppleID
Modern web browser MFA setup
No direct interaction devices Watch, TV,
HomePod use iPhone iPad
iCloud for Windows Not available Child accounts
Multiple FIDO Keys

Current Issues

[Change Password](#)

SIGN IN WITH APPLE

[Apps Using Apple ID](#) >

Your Apple ID can be used to sign in to apps and websites.

Two-Factor Authentication

On

Your trusted devices and phone numbers are used to verify your identity when signing in.

TRUSTED PHONE NUMBERS

[Edit](#)

Trusted phone numbers are used to verify your identity when signing in and help recover your account if you forget your password.

[Add Security Keys](#)

Physical security keys provide a strong form of two-factor authentication. [Learn more...](#)

Cancel

Security Keys

A FIDO® Certified security key is third-party hardware that you can use for two-factor authentication when you sign in.

Strongest account security

Physical security keys provide strong protection against phishing and unauthorized access to your account.

Replaces verification codes

A physical security key replaces verification codes sent to your devices when signing in or resetting your password.

FIDO® Certified is a trademark (registered in numerous countries) of FIDO Alliance, Inc.

[Add Security Keys](#)

Cancel

You Need Two Security Keys

To get started, you need two compatible security keys. This makes sure you can always sign in to your account, even if you lose one.

Store your keys separately, and in a safe place. If you lose them, Apple won't be able to help you access your account.

[How to choose the right security keys.](#)

Continue

Enter iPad Passcode

Enter the passcode you use to unlock this iPad to add security keys.

Cancel

Add the First Security Key

Apple ID

Add Security Keys

Insert and activate your first security key.

Apple ID

Add Security Keys

Enter the PIN to unlock your security key.

Continue

Add the First Security Key

Apple ID

Add Security Keys

To finish, insert and activate your security key again.

Add the First Security Key

Can't Add This Security Key

Try again with a different security key.

[Learn More](#)

[OK](#)

Name Your First Security Key

Give each key a unique name so you can tell them apart.

Name YubiKey 5 Series with NFC

Add the Second Security Key

Apple ID

Add Security Keys

Insert and activate your second security key.

Name Your Second Security Key

Give each key a unique name so you can tell them apart.

Name YubiKey 2

Review Your Active Devices

You're currently signed in to these devices. For security, select any you don't want to continue to have access to your account.

3 DEVICES

-  

[Stay Signed In To All](#)

Your Security Keys Have Been Added

Store your security keys separately and in a safe place. You'll need your Apple ID password and one of your keys when you sign in to your account on a new device or on the web.

You can add more keys to your account. Apple won't be able to help you access your account if you lose all of your keys.

Done

YubiKey 1

Added on 01/31/2023

YubiKey 2

Added on 01/31/2023

Apple released updates to users enrolled in public beta program

iOS 16.4, iPadOS 16.4, MacOS Ventura 13.3 which i loaded today.

Perhaps tvOS 16.4 and watchOS 9.4 which i did not.

The next MUG presentation will detail what is new/changed.
